CAD-CAE-CFD

- CATIA
- SolidWorks
- AutoCAD
- ANSYS-Workbench (FEA)
- ANSYS-CFD (Fluent & CFX)
- ANSYS ICEM CFD for Meshing
- ANSYS –CFD Post
- CAESAR –Pipe Stress Analysis
- PV-Elite - Pressure Vessel Design

Contact for Finalizing the Program

Mr. Sudhanshu Bhatt
Coordinator (Training & Operations)

Office : 8171124073

Pep Talk– Design Simulation & Validation

Academic—Industry Interaction for awareness in areas of commercial software tool learning .

Center For Professional Development Learning & Research in Dehradun is the only center in North India facilitated and well supported by TTRC, Bangalore for High end Research requirements in the domain of Design & Analysis in this region. Technology Training & Research Center (TTRC) is an expert consultant in the areas of CAD-CAE-CFD training & project services in Bangalore, Cochin & Hyderabad. CPDLR & TTRC work in close collaboration and mentorship of Industry Consultants, Academicians & Research fellows.

We would be pleased to organize this Pep Talk in your esteemed institution for facilitation of academic learning & research interest among your students and faculty.

Collaborate – Learn — Share

CPDLR-TTRC Advantage Programs

Pep Talk Agenda

- Growth in Industrial Design & Simulation sector
- Enhancing Academic Exposure in FEA & CFD
- Dilemma of Tool Knowledge vs Conceptual Clarity with Commercial Codes
- Devising schemes to relate simulation with experiments in Research
- Enthusing Faculty to employ simple techniques and principles of FEA & CFD to facilitate technical learning.
- Computational Modeling tools – CATIA / SolidWorks
- ANSYS Portfolio – FEA , CFD approach for Learning

Himanshu Joshi

Keynote Speaker for Pep Talk

Mr Himanshu Joshi is a young entrepreneur and CEO for Eduhive Learning Solutions Pvt. Ltd. He is also Chief Mentor for CPDLR –Dehradun & Chief of Projects for Airframe Aerodesigns Pvt. Ltd. , Bangalore.

Mr Joshi is a graduate in Mechanical Engineering from Uttar Pradesh Technical University and is also certified trainer for DISC psychoanalysis tool.

He started his career with Hindustan Aeronautics Limited (HAL-Banagalore) with IJT-LSP project in areas of Methods & Design with ARDC –Bangalore.

Subsequently he joined AAPL , Bangalore & extensively worked in areas of Engineering Design & Consulting for GIESC –AAPL (Saudi Arabia) , Institute of Plasma Research , DRDL-Hyderabad , BARC , ISRO and other prestigious clients in India & abroad. He has extensive interest in disseminating knowledge for usage of CAD , CAE & CFD areas for Academic usage and research functions . He has been operational in these segments for past ten plus years and expertise in CFD & FEA for Industrial Design , Development & Validation.

Simplifying CAD-CAE-CFD
